EXPECT FEDERAL ACTION IN THE COAL STRIKE

TO BE TAKEN WHEN PRESIDENT COOLIDGE RETURNS

STRIKE WILL THEN HAVE BEEN
IN PROGRESS A
WEEK

GOVERNMENT SERVICES MAY
POSSIBLY BE REN-
DERED

(By United Press)
Washington, Aug. 29.—Government action in the anthracite coal strike may be expected when President Coolidge returns to his White House desk a week from Tuesday and not before, an administration spokesman here made plain today.

If present plans carry through, the strike will then have been in progress a week and the situation will have settled down to a point where government services may possibly be rendered.

That there will be a strike is no less apparent to the government observers here than it has been for a week, but that the strike has aroused so little public concern is surprising to the experts of the commerce and labor departments who follow every move in the coal industry and advise the president what to do.

ARBITRATION PLANS HAVE BEEN REJECTED

Philadelphia, Aug. 29.—Arbitration of the anthracite operators' and miners' differences which was recommended by Major W. W. Inglis now stands indefinitely rejected by mine leaders here as both sides prepared today for the walkout which will begin Monday night.

Arbitration is characterized at mine headquarters as "skeleton," which buried in 1922 and opposed at that time by the operators is now dug up to be dangled again before the public as an issue.

STRIKE SCHEDULED FOR MONDAY NIGHT

Washington, Aug. 29.—With a strike scheduled for Monday night, production of anthracite coal in the week ending August 22nd has reached the highest total since December, 1922, the bureau of mines announced today.

Production for the week was estimated at 2,209,000 tons, an increase of 16 per cent or 305,000 tons over the preceding week.

Bituminous production totaled 10,527,000 tons, an increase of three per cent over the preceding week.

10 WEEKS' SUPPLY OF COAL IN STORAGE

Washington, Aug. 29.—A 10 weeks supply of anthracite coal will be in storage at the mines September 1 when the strike of miners becomes effective, according to estimates of the bureau of mines today.

Approximately 15,000,000 tons of the total production estimated up to the time of the strike amounting to 62,000,000 tons, it has been determined, will be on hand awaiting distribution.

FINAL PLANS FOR THE STRIKE

Philadelphia, Aug. 29.—Final plans for conduct of the anthracite strike which will go into effect Monday at midnight occupied mine worker leaders here today.

General headquarters of the miners during the suspension will be maintained at the Bellevue-Stratford hotel here where John L. Mitchell and heads of the miners' organization are stationed.

While no strike benefits were to be paid miners during the suspension a welfare board will be appointed to handle cases of need as they arise. Union officials declared there would be no picketing of mine property during the strike.

THREE CANADIAN TOWNS PURSUE STORE BANDITS

(By United Press)
Grand Forks, Aug. 29.—Residents of three small Canadian villages 50 miles from the American border are today pursuing armed bandits who escaped with \$7,000 after cutting communication wires and blasting store safes.

Reports of the robberies were received here early today. Six stores were raided at Terherne, four in Bathwell and five in Holland.

The bandits were reported heading for Grand Forks.

PAPERS CURBED BY POSTAL RATES

PUBLISHER TELLS COMMITTEE GROWTH IN NORTHWEST IS MENACED

St. Paul, Aug. 29.—Postal rates that went into effect April 15 are menacing the growth of newspapers in the northwest and are handicapping their service to subscribers.

This was the view expressed today by newspaper publishers and their representatives who testified before a hearing of the joint postal subcommittee at the Athletic club.

The hearing was conducted by Sen. George H. Moses, New Hampshire, chairman; Sen. Kenneth McKellar of Tennessee, Rep. Thomas M. Bell of Georgia and Rep. C. William Ramsey of Iowa.

The postal rates became effective April 15 to raise \$60,000,000 of the \$68,000,000 needed to pay postal salary increases. The committee has made a tour of the principal cities in the country to determine the views of business men. In every city where hearings were held, the postal rates were held a serious check on business expansion.

The subcommittee will report its findings to congress at its next session.

Newspaper publishers, who are the largest users of postal service in the country, are affected seriously by the present high rates, with the result that they will use other means of distributing their papers if the high rates continue, it was pointed out.

3 HURT IN A \$20,000 FIRE AT LAKEVILLE

(By United Press)
Lakeville, Aug. 29.—Three persons were injured late Friday when a \$20,000 fire damaged the business section here. The Lakeville hotel suffered \$10,000 damage. The remainder of the loss was confined to a garage, a restaurant, a soft drink bar and a real estate office.

SURVEY OF PUBLIC LANDS

(By United Press)
Washington, Aug. 29.—Apportionment of the \$840,290 apportioned by congress for a survey of public lands was announced today by the general land office of the interior department.

The amount after deduction of expenses has been allotted to include: \$41,420 for Nebraska and South Dakota; \$47,300 for Alaska; \$54,040 for Colorado and \$45,000 for the entire eastern section.

CRUDE PETROLEUM PRODUCTION FIGURES

(By United Press)
Washington, Aug. 29.—Production of crude petroleum which furnishes gasoline for motorists fell off 18,467,000 barrels in the United States in 1924 to a total production of 713,940,000 barrels, the department of commerce announced today. California lead all states with a production of 228,933,000 barrels, a decrease of 33,943,000.

SUPER-AIRPLANE OF WIDE RANGE NOW PERFECTED

CAN FLY FROM PARIS TO TOKIO
WITH A TON OF EX-
PLOSIVES

BALKED BY "OLD FOGEY" IDEAS
IN THE ARMY AND
NAVY

(By United Press)
Chicago, Aug. 29.—A super-airplane capable of flying to Paris or Tokio loaded with a ton of explosives has been perfected in this country, but its development is being balked by "old fogey ideas" in the army and navy. Colonel William Mitchell, deposer of the army air service, declared in an interview here between trains to San Antonio.

"I believe that the huge bi-planes that have been built are capable of a flight to Tokio with one stop at Nome, Alaska," Mitchell declared.

"They will make 113 miles per hour for 60 hours, but we can't prove it unless the army and navy heads see fit to grant us permission."

"Old fogey ideas are holding back the inevitable," said Colonel Mitchell whose persistence in making such remarks contributed to his demotion and transfer to San Antonio.

"The air service is just a pair of twin orphans farmed out to the army and navy," he declared. "There should be, as I have always contended, a separate air service under a separate command, because the next war will be fought in the air."

Mitchell said the huge bi-plane development of which the government has balked were designed by him and constructed under his direction.

WIFE OF SCREEN ACTOR PASSED AWAY

(By United Press)
Hollywood, Cal., Aug. 29.—Mrs. Florence Smythe Roberts, 48, wife of Theodore Roberts, noted screen actor, died suddenly today at her home in Hollywood.

Death was caused by heart disease, superinduced by an attack of indigestion.

Mrs. Roberts' husband was at the bedside when she died. Her death was a severe shock to the popular film player, himself ill the past two years from an attack of partial paralysis.

BANK BANDITS BLEW WRONG SAFE

(By United Press)
Stoddard, Wis., Aug. 29.—Four bank bandits some time during the night cut all wires from the city and proceeded to blow the bank safe. They succeeded in cutting their way through the wall of the bank in great shape and entrenched. Then they set the charge of nitroglycerine and literally tore the safe to bits.

But on making examination after the explosion they found they had cracked an old safe which was empty. Unable to continue their way on to the new safe, which bank officials are using, the bandits climbed into their car and departed.

S. D. License Tax on Gasoline Stations Said Unconstitutional

(By United Press)
Pierre, S. D., Aug. 29.—South Dakota's license tax of \$5 a year on places where gasoline is sold is unconstitutional, the state supreme court decided today.

The Standard Oil Company will be granted a perpetual injunction against the tax unless the state files an answer within ten days, the court declared. It is indicated no answer will be filed and the injunction will become effective in ten days.

The court held that the license tax did not apply to all dealers in gasoline alike and therefore, was unconstitutional.

FIVE LEADERS IN ALLEGED FLORIDA LAND FRAUD TAKEN

(By United Press)
Chicago, Aug. 29.—Five leaders in an alleged Florida land fraud, said to have netted its promoters more than a million dollars in the last six months, were to be arrested on federal warrants today.

Hundreds of foreign born residents of the midwest are said to have invested their savings of their life time with the Florida land company only to learn the property they bought was worthless.

According to federal authorities, the warrants charge the promoters with using the mails to defraud.

GASOLINE PRICE WAR SPREADS

RUNS FROM MIDDLE WEST TO
THE EAST TO-
DAY

(By United Press)
Chicago, Aug. 29.—The gasoline price cutting war which has been centered in the east today spread to the middle west and the Standard Oil Company of Indiana met competitor's cuts through its territory with a two cents a gallon reduction in the fuel.

The reduction affected the following cities:

Des Moines, Kansas City, Mo., Wichita, Kans., and all surrounding territory.

Industrial Employment Figures Seventh District

(By United Press)
Chicago, Aug. 29.—Industrial employment increased two-tenths per cent in the seventh federal district from June 15 to July 15, the monthly report of the federal reserve bank of Chicago shows.

The Wisconsin canning industry was largely responsible for the gain. Employment in almost all other industries in the district decreased.

At the same time payroll aggregates for the month showed a 2.4 decline.

Decreases were most pronounced in the metal, metal products and vehicle industries. Seasonal trades suffered the usual slump but it was less pronounced than last year, according to the report.

Savings deposits in banks of the district dropped with the payroll decline. The total fell off 2.1 per cent last month. More than 100 individual banks reported decreases.

ROMANCE OF FRITZ AND WOODS

(By United Press)
Crookston, Aug. 29.—The determination of Ralph Fritz, Elgin, Ill., grocer not to return to his family there lead police to guard him closely night and day. They feared an attempt to escape.

Ruth Woods, bobbed hair blonde who came to Fritz here will be taken to Madison, Wis., to face an immorality charge. A deputy sheriff from Madison is expected here tonight to take her back.

Fritz is determined to fight extradition to Illinois. Chief of Police Ramsey of Elgin wired that he would be here in three days to take him back. Fritz and Miss Woods are not allowed to see or talk to each other. Wife and child desertion is the charge against the grocer.

GOVERNMENT SERVICES MAY
POSSIBLY BE REN-
DERED

(By United Press)
Washington, Aug. 29.—Govern-
ment action in the anthracite coal
strike may be expected when Presi-
dent Coolidge returns to his White
House desk a week from Tuesday
and not before, an administration
spokesman here made plain today.

If present plans carry through, the
strike will then have been in pro-
gress a week and the situation will
have settled down to a point where
government services may possibly be
rendered.

That there will be a strike is no
less apparent to the government ob-
servers here than it has been for a
week, but that the strike has aroused
so little public concern is surpris-
ing to the experts of the commerce
and labor departments who follow
every move in the coal industry and
advise the president what to do.

ARBITRATION PLANS HAVE BEEN REJECTED

Philadelphia, Aug. 29.—Arbitra-
tion of the anthracite operators' and
miners' differences which was recom-
mended by Major W. W. Inglis now
stands indefinitely rejected by mine
leaders here as both sides prepared

dug up to be dangled again before
the public as an issue.

STRIKE SCHEDULED FOR MONDAY NIGHT

Washington, Aug. 29.—With a
strike scheduled for Monday night,
production of anthracite coal in the
week ending August 22nd has reached
the highest total since December,
1922, the bureau of mines announced
today.

Production for the week was esti-
mated at 2,209,000 tons, an increase
of 16 per cent over 305,000 tons over
the preceding week.

Bituminous production totalled
10,527,000 tons, an increase of three
per cent over the preceding week.

10 WEEKS' SUPPLY OF COAL IN STORAGE

Washington, Aug. 29.—A 10 weeks
supply of anthracite coal will be in
storage at the mines September 1
when the strike of miners becomes
effective, according to estimates of
the bureau of mines today.

Approximately 15,000,000 tons of
the total production estimated up to
the time of the strike amounting to
62,000,000 tons, it has been deter-
mined, will be on hand awaiting dis-
tribution.

FINAL PLANS FOR THE STRIKE

Philadelphia, Aug. 29.—Final
plans for conduct of the anthracite
strike which will go into effect Mon-
day at midnight occupied mine
worker leaders here today.

General headquarters of the min-
ers during the suspension will be
maintained at the Bellevue-Stratford
hotel here where John L. Mitchell
and heads of the miners' organiza-
tion are stationed.

While no strike benefits were to be
paid miners during the suspension a
welfare board will be appointed to
handle cases of need as they arise.
Union officials declared there would
be no picketing of mine property
during the strike.

SUPER-AIRPLANE OF WIDE RANGE NOW PERFECTED

CAN FLY FROM PARIS TO TOKIO
WITH A TON OF EX-
PLOSIVES

BALKED BY "OLD FOGGY" IDEAS
IN THE ARMY AND
NAVY

(By United Press)
Chicago, Aug. 29.—A super-air-
plane capable of flying to Paris or
Tokio loaded with a ton of explo-
sives has been perfected in this coun-
try, but its development is being
balked by "old foggy ideas" in the
army and navy, Colonel William
Mitchell, depoted of the army air
service, declared in an interview
here between trains to San Antonio.

"I believe that the huge bi-planes
that have been built are capable of
a flight to Tokio with one stop at
Nome, Alaska," Mitchell declared.
"They will make 113 miles per
hour for 60 hours, but we can't prove
it unless the army and navy heads
see fit to grant us permission.

"Old foggy ideas are holding back
the inevitable," said Colonel Mitchell
whose persistence in making such
remarks contributed to his demotion
and transfer to San Antonio.

"The air service is just a pair of
twin orphans farmed out to the
army and navy," he declared. "There
should be, as I have always con-
tended, a separate air service under
a separate command, because the
next war will be fought in the air."

Mitchell said the huge bi-plane de-
velopment of which the government
has balked were designed by him and
constructed under his direction.

WIFE OF SCREEN ACTOR PASSED AWAY

(By United Press)
Hollywood, Cal., Aug. 29.—Mrs.
Florence Smythe Roberts, 48, wife of
Theodore Roberts, noted screen actor,
died suddenly today at her home in
Hollywood.

Death was caused by heart disease,
superinduced by an attack of indig-
estation.

Mrs. Robert's husband was at the
bedside when she died. Her death
was a severe shock to the popular
film player, himself ill the past two
years from an attack of partial par-
alysis.

BANK BANDITS BLEW WRONG SAFE

(By United Press)
Stoddard, Wis., Aug. 29.—Four
bank bandits some time during the
night cut all wires from the city and
proceeded to blow the bank safe.

They succeeded in cutting their way
through the wall of the bank in great
shape and entrenched. Then they
set the charge of nitroglycerine and
literally tore the safe to bits.

But on making examination after
the explosion they found they had
cracked an old safe which was empty.
Unable to continue their way on to
the new safe, which bank officials
are using, the bandits climbed into
their car and departed.

The Standard Oil Company will be
granted a perpetual injunction against
the tax unless the state files an an-
swer within ten days, the court de-
clared. It is indicated no answer
will be filed and the injunction will
become effective in ten days.

The court held that the license
tax did not apply to all dealers in
gasoline alike and therefore, was un-
constitutional.

FIVE LEADERS IN ALLEGED FLORIDA LAND FRAUD TAKEN

(By United Press)
Chicago, Aug. 29.—Five leaders
in an alleged Florida land fraud,
said to have netted its promoters
more than a million dollars in the
last six months, were to be arrest-
ed on federal warrants today.

Hundreds of foreign born resi-
dents of the midwest are said to
have invested their savings of
their life time with the Florida
land company only to learn the
property they bought was worth-
less.

According to federal authorities,
the warrants charge the promo-
ters with using the mails to de-
fraud.

GASOLINE PRICE WAR SPREADS

RUNS FROM MIDDLE WEST TO THE EAST TO- DAY

(By United Press)
Chicago, Aug. 29.—The gasoline
price cutting war which has been
centered in the east today spread to
the middle west and the Standard
Oil Company of Indiana met competi-
tor's cuts through its territory with
a two cents a gallon reduction in
the fuel.

The reduction affected the follow-
ing cities:
Des Moines, Kansas City, Mo.,
Wichita, Kans., and all surrounding
territory.

Industrial Employment Figures Seventh District

(By United Press)
Chicago, Aug. 29.—Industrial em-
ployment increased two-tenths per-
cent in the seventh federal district
from June 15 to July 15, the month-
ly report of the federal reserve bank
of Chicago shows.

The Wisconsin canning industry
was largely responsible for the gain.
Employment in almost all other
industries in the district decreased.

At the same time payroll aggre-
gates for the month showed a 2.4 de-
cline.

Decreases were most pronounced
in the metal, metal products and ve-
hicle industries. Seasonal trades
suffered the usual slump but it was
less pronounced than last year, ac-
cording to the report.

Savings deposits in banks of the
district dropped with the payroll de-
cline. The total fell off 2.1 per cent
last month. More than 100 indi-
vidual banks reported decreases.

ROMANCE OF FRITZ AND WOODS

(By United Press)
Crookston, Aug. 29.—The deter-
mination of Ralph Fritz, Elgin, Ill.,
grocer not to return to his family
there lead police to guard him closely
night and day. They feared an at-
tempt to escape.

Ruth Woods, bobbed hair blonde
who came to Fritz here will be taken
to Madison, Wis., to face an immor-
ality charge. A deputy sheriff from
Madison is expected here tonight to
take her back.

Fritz is determined to fight extra-
dition to Illinois. Chief of Police
Ramey of Elgin wired that he would
be here in three days to take him
back. Fritz and Miss Woods are not
allowed to see or talk to each other.
Wife and child desertion is the
charge against the grocer.

FLIGHT PLANNED VIA WEBSTER
CITY, IOWA, TO ST.
PAUL

(By United Press)
St. Paul, Aug. 29.—The huge dir-
igible Shenandoah will arrive at the
Minnesota State Fair September 5th
at about 8:15 a. m., according to a
radiogram to Herman Roe, president
of the fair board from Admiral Eb-
erle of the aeronautic department of
the navy.

The radiogram relayed at Fort
Snelling to Chairman Roe read:
"The general direction of the
flight of the Shenandoah will be from
Webster City, Ia., to St. Paul. Time
of arrival at St. Paul depends primar-
ily upon atmospheric and weather
conditions, but estimate arrive St.
Paul 8:15 a. m. September 5th and
depart about 10:30 a. m. central
standard time. The Shenandoah will
fly over the Twin Cities and the
Minnesota State Fair grounds during
the day. (Signed) Eberle."

Leaving the Twin Cities, the Shen-
andoah will fly to Milwaukee and De-
troit.

WEAK SHELL STOPPED SUICIDE

(By United Press)
Faribault, Aug. 29.—A weak shell
that struck the nose of a bullet into
his scalp but failed to penetrate his
skull, saved Ernest Workman from
being a suicide today. Doctors pick-
ed the bullet from his scalp.

Workman attempted suicide in a
garage after assaulting Miss Clara
Mussell, his sweetheart. He shot
her in the mouth and beat her with
the gun. She is in a hospital but
will recover.

"I Can't Spend It When I Haven't Got It"

This is the way one young fellow puts it. "I can't spend money when it's in the bank," he says.

He has learned that loose change in the pocket has a habit of dissolving—disappearing—slipping away mysteriously. And the hole through which it slips is at the top.

No, it isn't human nature to hang onto a loose dollar when it is continually calling on you to spend it. The safest way is to put that dollar in a savings account and then tell yourself it is gone. Forget it entirely.

Then some bright morning you'll wake up to find yourself in possession of a nice big bank account.

Dimes soon become dollars in a savings account. They take root in the fertile soil of compound interest and grow and grow. Come in and talk to us about a savings account.

Why?
Lord Balfour, apropos of the revival of his note on allied indebtedness, was being discussed at a dinner party in Washington.
"Lord Balfour is a bachelor," said a senator's wife. "Well, when he was here last, a lady said to him: 'Mr. Balfour—he was only Mr. Balfour then—can you, as a philosopher, tell me why there is no marriage or giving in marriage in heaven?'"
"Mr. Balfour frowned.
"But," he said, "but heaven's heaven, isn't it?"

What Attracted Crowd
There was a large crowd in front of the millinery window of a San Antonio (Texas) department store when it opened for business. The manager of the department rubbed his hands and smiled in pleasure. When the crowd increased and none came inside, he decided to investigate. There, comfortably ensconced in the crown of a stylish hat, was a cat and with her a litter of kittens. They had been born in "he hat in the night."

Neglect Their English
There are not ten members of the British parliament who speak or write English properly. In the opinion of Dr. E. G. Graham, member of parliament himself for the London university. In a recent address Doctor Graham raised his voice against the "woeful neglect" of the study generally of English, which he called the finest language in the world.

CALIFORNIA IS WORRIED

THAT real estate boom in Florida is causing some worry for California. There is a race on between the two commonwealths as to which gets the most tourists. Then, incidentally, the Brainerd Lake Region has also entered the limelight, because it is serving to attract a group of 50 millionaires headed by William Wrigley, Jr., the chewing gum king of the world. Wrigley, by the way, is the man who took the bleak and barren, rocky and inhospitable Catalina islands and made of them a show place of the world. With his California experience, Mr. Wrigley can take any lake country in our Brainerd Lake Region and with such natural resources at hand, make of any location he selects a wonder spot of the world, an attraction for tourists.

We take this from United Press reports: "For the first time California is forced to face competition for the nation's tourist trade," said B. M. Rastall, head of "Californians Incorporated," the central and northern California booster institution. "We have not noticed the effect of this competition yet. This summer's tourist traffic was 25 per cent higher than last year's and came up to our best year, 1923. But we are awake to the need of bigger efforts."

Los Angeles, through its Chamber of Commerce and All Year club, is raising \$1,000,000 to boost that section. They will double the present advertising space in eastern magazines, conduct booths and exhibits in eastern expositions and fairs and send out an army of orange and raisin queens and movie and bathing beauties to the blase cities of the east.

Californians Incorporated will spend \$500,000 to circularize national parks, schools and railway stations with posters and pamphlets telling of the state "where life is better." They will use the movies, radio and periodicals, seek to force the railways to lower rates and give winter excursions, and conduct a drive for permanent settlers and investors.

Then California is also working for transcontinental highways and increasing the mileage of paved highways in her state. When one sees what California and Florida are doing to attract the millionaire, the investor, the tourist, the pleasure seeker, the settler, the retired man of business, one looks with wonder at the comparatively feeble efforts made to get this kind of business for Minnesota.

One small town in Florida of less than two thousand population, is spending more in one year for publicity of its own bawling than the whole state of Minnesota has done officially as a state for the same period.

The publicity committee of the Elks state convention and local lodge has worked unceasingly to get the state convention in picture form and shown throughout the state. Finkelstein & Ruben, great theatre owners and producers and Theodore L. Hays, Past Exalted Ruler of Minneapolis Lodge No. 44 took the pictures of the convention, edited them and titled them. Brainerd Lodge contributed to the expense. In the publicity, more than state-wide, thus secured, all Brainerd is a recipient. Brainerd gains prestige as a convention town and it is shown as fully able and competent to take care of a large convention crowd. Brainerd Lodge is to be thanked for getting such publicity, for the town, more than the lodge, will be reaping benefits from the publicity secured.

WHAT IS GREATNESS?

ALVAH EASTMAN, editor of the St. Cloud Daily Journal-Press, in taking up the subject of "What is Greatness?" says the personality of Calvin Coolidge is something of an enigma to most folks. They don't know whether he is a big man, or whether he has been favored with the gods with a great run of luck.

William Allen White, the Kansas iconoclast, who is obsessed with the stunt of saying something sensational, writes that the president is a "second rater, with an economy complex." Stearns of Boston is certain that he is one of the world's most able individuals.

Men who have met and studied the chief executive from close range are divided in their opinions.

However, all admit that he has a way of getting things done, that he does some serious thinking and no useless talking, that when he calls in conference men in any line his questions show that he is seeking information with an open mind, and that he has a clear idea of what he is after. It is very generally agreed that he is honest, has plenty of courage, and when he speaks he does it in an understanding way, without a confusing web of words—but goes straight ahead in concise Yankee directness.

After all, what is greatness? Is it the great man with overhanging brow, who gives utterance to ponderous and bewildering sentences—or is it the individual whose efforts are crowned with accomplishments?

When Jim Hill was unloading freight from a river steamer he was considered just an ordinary workman. When he, through years of labor, built a great system of railroads and managed it on a dividend paying basis, he became known as the world's great constructive transportation captain.

A few years ago Henry Ford was known down in Detroit as a pest and a nuisance. Today he is acknowledged to be a wizard in industry and finance. On the witness stand he proved to be a good deal of a dub.

There are long lists of people who rose from the ranks, just of the common lot, but who outclassed their fellows in achievements.

Gen. U. S. Grant was pretty much of failure—until he was given command of the Union forces, and won great victories, and became one of the world's efficient military men. Yet he was not rated highly as president, and in business matters he was the victim of friends, and only his honesty and his heroic struggle in the face of great physical suffering, when he knew he was facing death, won back the warm-hearted confidence of the multitude.

Lincoln is rated as one of the great of earth—but had the Union forces been defeated, and this nation cut in twain, he would have been considered a kindly man, whose pathway was beset with unsurmountable barriers.

Coolidge has occupied many positions. He has a long record of successes. He has a few outstanding achievements for brilliancy and courage. His is striving to help the people of this country and to keep the country free from international controversies. He has business sense. He wants to make the burden of government as light as possible on the shoulders of the people. No

man in recent years has won and held the confidence of the people in so large a degree.

We do not know whether he should be rated as a really great man. But we do believe he has a clear vision, sense and sanity, and that his religion is to best serve the whole people. Is there any better test of greatness than that?

You have heard of the small kind of litigation termed "wash line" cases. Up in Cass county they have a new one, a telephone line case. One Jake Sours, as reported in the Walker Pilot, seems to have soured on his wife using the telephone so much, and as he could not stop her from talking, he is alleged to have wrecked the line. The farmers telephone company sued him and the jury of twelve disagreed. The case was continued until after harvest. In the meantime the daughters of the defendant repaired the line as they couldn't get along without a telephone. And that's probably the end of the case and dad, after his day in court, will no doubt have to permit continuance of the rural telephone.

You never heard of a one-armed woman driver, says the Staples World.

DR. ROY SMITH'S SATURDAY NIGHT TALKS

By the REV. ROY L. SMITH, D. D.
Pastor Simpson M. E. Church, Minneapolis

THE TYRANNY OF TRIFLES

The average man's life consists of a few great moments and years of commonplaces. There is danger that we shall come under the tyranny of trifles.

Consider how much of life is spent on the inconsequential. We toll through long days of preparation for useless occasions. We worry ourselves into nervous exhaustion over questions of social form, religious controversy, business detail or personal appearance.

Our conversation betrays our paucity of great ideas. Listen to the small talk that goes on all around you and discover for yourself what trifles seem to be ruling the lives of the average folk.

The sin of the innkeeper of Bethlehem was not the fact that he refused a shelter to the mother of the infant Jesus, but the fact that the place was full and he could make no room.

The sin of the average man or woman is not that he has betrayed holy vows but that he has kept no room in his life for great ideas, great thoughts, great purposes.

We read trifling books in which shallow themes are treated superficially. We sing songs in which silly and maudlin words have been set to cheap and ugly music. We watch pictures in which beautiful photography, high priced actors and extravagant settings have been hitched up with petty and senseless stories.

We are threshing lots of straw for little wheat. Look through the average magazine rack, pick over a counter full of the latest best sellers, join in the gayest conversations and watch for the really great ideas.

The art of intelligent and stimulating conversation is being rapidly lost. When we have talked about the latest picture, the most recent scandal, the prize won at the bridge party and last night's comic strip our conversation seems to have "struck bottom."

A great preacher once said to his young assistant, "When you choose a text, look for a great theme. It is better to treat a great theme in a small way than to try to treat a small theme in a great way."

Beware of the tyranny of trifles.

CALIFORNIA IS WORRIED

THAT real estate boom in Florida is causing some worry for California. There is a race on between the two commonwealths as to which gets the most tourists. Then, incidentally, the Brainerd Lake Region has also entered the limelight, because it is serving to attract a group of 50 millionaires headed by William Wrigley, Jr., the chewing gum king of the world. Wrigley, by the way, is the man who took the bleak and barren, rocky and inhospitable Catalina islands and made of them a show place of the world. With his California experience, Mr. Wrigley can take any lake country in our Brainerd Lake Region and with such natural resources at hand, make of any location he selects a wonder spot of the world, an attraction for tourists.

We take this from United Press reports: "For the first time California is forced to face competition for the nation's tourist trade," said B. M. Rastall, head of "Californians Incorporated," the central and northern California booster institution. "We have not noticed the effect of this competition yet. This summer's tourist traffic was 25 per cent higher than last year's and came up to our best year, 1923. But we are awake to the need of bigger efforts."

Los Angeles, through its Chamber of Commerce and All Year club, is raising \$1,000,000 to boost that section. They will double the present advertising space in eastern magazines, conduct booths and exhibits in eastern expositions and fairs and send out an army of orange and raisin queens and movie and bathing beauties to the blase cities of the east.

Californians Incorporated will spend \$500,000 to circularize national parks, schools and railway stations with posters and pamphlets telling of the state "where life is better." They will use the movies, radio and periodicals, seek to force the railways to lower rates and give winter excursions, and conduct a drive for permanent settlers and investors.

Then California is also working for transcontinental highways and increasing the mileage of paved highways in her state. When one sees what California and Florida are doing to attract the millionaire, the investor, the tourist, the pleasure seeker, the settler, the retired man of business, one looks with wonder at the comparatively feeble efforts made to get this kind of business for Minnesota.

One small town in Florida of less than two thousand population, is spending more in one year for publicity of its own baillwick than the whole state of Minnesota has done officially as a state for the same period.

The publicity committee of the Elks state convention and local lodge has worked unceasingly to get the state convention in picture form and shown throughout the state. Finkelstein & Ruben, great theatre owners and producers and Theodore L. Hays, Past Exalted Ruler of Minneapolis Lodge No. 44 took the pictures of the convention, edited them and titled them. Brainerd Lodge contributed to the expense. In the publicity, more than state-wide, thus secured, all Brainerd is a recipient. Brainerd gains prestige as a convention town and it is shown as fully able and competent to take care of a large convention crowd. Brainerd Lodge is to be thanked for getting such publicity, for the town, more than the lodge, will be reaping benefits from the publicity secured.

WHAT IS GREATNESS?

ALVAH EASTMAN, editor of the St. Cloud Daily Journal-Press, in taking up the subject of "What is Greatness?" says the personality of Calvin Coolidge is something of an enigma to most folks. They don't know whether he is a big man, or whether he has been favored with the gods with a great run of luck.

William Allen White, the Kansas iconoclast, who is obsessed with the stunt of saying something sensational, writes that the president is a "second rater, with an economy complex." Stearns of Boston is certain that he is one of the world's most able individuals.

Men who have met and studied the chief executive from close range are divided in their opinions.

However, all admit that he has a way of getting things done, that he does some serious thinking and no useless talking, that when he calls in conference men in any line his questions show that he is seeking information with an open mind, and that he has a clear idea of what he is after. It is very generally agreed that he is honest, has plenty of courage, and when he speaks he does it in an understanding way, without a confusing web of words—but goes straight ahead in concise Yankee directness.

After all, what is greatness? Is it the great man with overhanging brow, who gives utterance to ponderous and bewildering sentences—or is it the individual whose efforts are crowned with accomplishments?

The fifty larger vessels of the ocean going type will be scrapped at Chester, Pa., or some other point and the steel sheets shipped to the Rouge plant. A few probably will be equipped with Diesel engines and put into service as part of the company's ocean going fleet.

The Ford Motor Company will organize a force from its regular employees to tear down the vessels. Estimates are that the work will require eighteen months.

Ships Sliced Into Strips

The method to be followed in junking this unusual number of ships will be to strip the boats to the water line, huge cranes carrying the big steel strips away to the furnaces.

The hulls will be towed to a small dry dock and chopped up there. In this manner ship after ship by a steady process will be reduced to innumerable slices of steel. The steel can be remelted and used to serve any purpose Ford desires.

None of the lake ships or machinery may be used for carrying purposes on the water but may be utilized in any manner on land. The machinery probably will be converted for work in the Ford factories.

COUNTY EXHIBIT AT STATE FAIR

Comprehensive Showing Made by County Agent E. G. Roth

ALL CLASSES OF GRAINS

Grasses, Vegetables, Iron Ore Exhibit, Lake Region Exhibit

County Agent E. G. Roth is preparing a very comprehensive exhibit of agricultural products raised in Crow Wing county, which is to be shown at the Minnesota State Fair beginning next Saturday, September 5th.

This exhibit will include all classes of small grains grown in the county, as well as grasses and vegetables and because of the excellent crops this year, an exceptionally fine showing will be made.

Mr. Roth has practically all of his grains and grasses collected for this exhibit, but still needs several items to complete the list. Among these are two varieties of cow peas, one each of millet and vetch. Any farmers who are raising these crops are asked to prepare sample bundles three or four inches in diameter, and bring them in to the county agent.

Last year Crow Wing county's exhibit made a very favorable impression upon state fair visitors, and did a great deal to advertise this section of Minnesota. It is believed that

this year's exhibit will prove an even greater attraction, and should furnish excellent publicity for the farming possibilities of Crow Wing county.

FORD SCRAPPING PLAN
WILL RAPIDLY REDUCE
SHIPS INTO FLIVVERS

(By United Press)
Detroit, Mich., Aug. 29.—The first three of the 199 shipping board vessels to be turned into land "flivvers" by Henry Ford are expected to come to anchor at the River Rouge plant the second week in September.
The crafts will be in tow of one of the seven ocean going tugs bought from the government by the Detroit manufacturer.
Thereafter the others of the 149 lake size ships will be brought to the Rouge docks and when a few of them are on hand the work of ripping

them apart with acetylene and electric torches will begin.
The fifty larger vessels of the ocean going type will be scrapped at Chester, Pa., or some other point and the steel sheets shipped to the Rouge plant. A few probably will be equipped with Diesel engines and put into service as part of the company's ocean going fleet.
The Ford Motor Company will organize a force from its regular employees to tear down the vessels. Estimates are that the work will require eighteen months.
Ships Sliced Into Strips
The method to be followed in junking this unusual number of ships will be to strip the boats to the water line, huge cranes carrying the big steel strips away to the furnaces. The hulls will be towed to a small dry dock and chopped up there. In this manner ship after ship by a steady process will be reduced to innumerable slices of steel. The steel can be remelted and used to serve any purpose Ford desires.
None of the lake ships or machinery may be used for carrying purposes on the water but may be utilized in any manner on land. The machinery probably will be converted for work in the Ford factories.

Governor Goes to Park Rapids Monday, Reception at Pequot Sunday

Governor Theodore Christianson and party will arrive today from St. Paul, and go on to Pequot, where they will be guests at the F. T. Gustavson home for several days.

In the party are the governor and Mrs. Christianson, their two sons with a boy friend, and Mrs. Christianson's mother. They expect to remain until Tuesday of next week.

Governor Christianson will go on to Park Rapids on Monday, where he will deliver an address that afternoon and be back in time to officially open the Crow Wing county fair that evening. A public reception is being arranged for the party from 6 to 8 o'clock Sunday evening at the Pequot tourist park, to which everyone is cordially invited. A light luncheon will be served there cafeteria style, those attending are asked to bring a small cake or a few sandwiches and dishes to serve themselves.

FINAL DISPOSITION RUSSIAN REFUGEES STILL GREAT TASK

By HENRY WOOD
(United Press Staff Correspondent)
Geneva, Aug. 29. — World-wide statistics just completed by the International Labor Bureau place at 194,000 the number of unemployed Russian and American refugees still scattered about the world as a result of the great war.

Of this number 124,000 are to be found in the various European countries, living almost from hand to mouth.

The distribution of the unemployed Russian refugees in the different countries is as follows:

- Austria, 2,559 of which 730 are women over 14 years.
- Bulgaria, 4,000.
- China, 70,000.
- Estonia, 3,000.
- Germany 50,000 mostly agricultural workers, intermittently employed; and also about 45,000 colonists from the Volga region.
- Greece, 1,631.
- Latvia, 1,910.
- Poland, 6,700.
- Serbia, 1,200.
- Turkey, 550.

In addition to the above Russian refugees there are also still in Greece over 7,000 Armenian refugees without employment.

Final settlement of this problem is being sought by the International Labor Bureau which keeps in close touch with the labor market all over the world and which is seeking to transfer and place these refugees in the various countries where the particular kind of help they are capable of giving is needed.

Many May go to South America
The Labor Bureau expects soon the final report of the mission headed by Colonel Proctor which it sent to all of the leading South American countries with a view of permanent placing many of these refugees there.

It is expected that Colonel Proctor will have succeeded in making arrangements with several of the South American countries that will permit of a final transfer and settlement of several thousand of these refugees.

For the rest the Labor Bureau hopes to secure appropriations from various countries that will render it possible whenever the labor market of any country calls for a certain number of workers along any special line to at once transfer and permanently settle all of those for whom employment can be found.

IRATE MAN FINED \$75 FOR CHEWING BAILIFF'S FINGER

Minneapolis, Aug. 29.—A. Martin, Minneapolis police court bailiff, is nursing a painfully chewed finger today after trying to levy on clothes in the store of Solomon Steinmann, 21 Nicollet ave.

In court, Steinmann was fined \$75 for doing the chewing on a charge of interfering with an officer performing his duty.

A judgment of \$35 and costs had been obtained against Mr. Steinmann in Hennepin county. Mr. Martin, with Joseph Komers, went to the Steinmann store to seize sufficient stock to satisfy the judgment.

He attacked them, saying he did not know they were officers.

An Ancient Orgy was the worship of the golden calf shown elaborately in "The Ten Commandments" Cecil B. De Mille's Cinemasterpiece. Estelle Taylor (Mrs. Jack Dempsey) is shown here as Miriam in this greatest of Paramount Pictures.

"The Ten Commandments" Covers Time and Territory

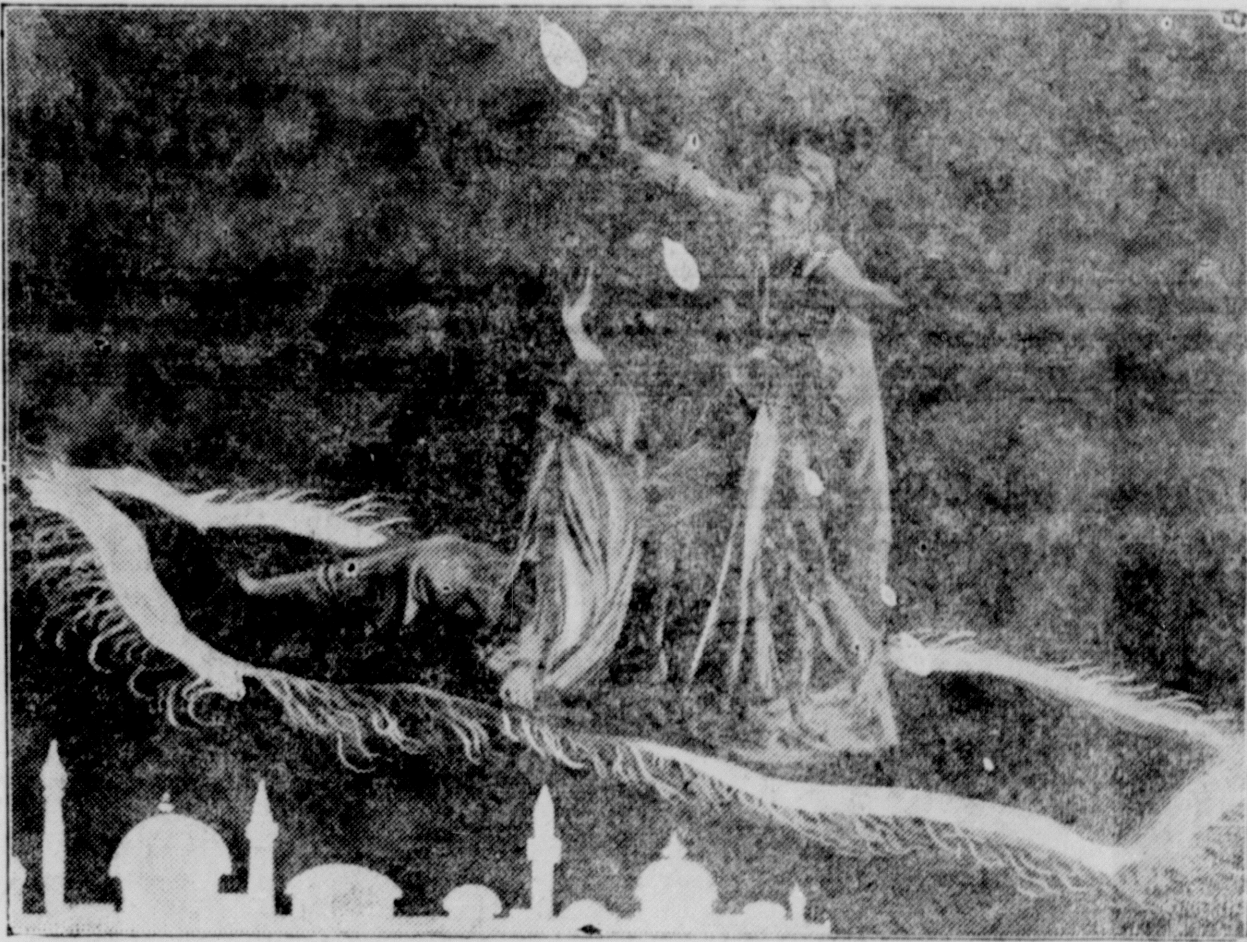

The Red Sea and San Francisco are about five thousand miles apart. The Israelites led by Moses on their exodus from Egypt are separated by about forty centuries from Sunday afternoon jazz dancing today. Yet, Cecil B. DeMille has managed to put them together convincingly in his

picturization of "The Ten Commandments." This great Paramount picture is coming to the New Park Sunday for a four days' run, where it will be shown at popular prices.

The modern story opens on a devout mother driving one of her two sons from home because he will not "apologize to God," for what she believes sacrilege. The son goes out

into the world, not bitterly, but boyishly exultant, to smash every commandment. Then DeMille develops his theme that "if you try to break the Ten Commandments they'll break you."

A gorgeous Biblical episode, done in natural colors, is enacted by such popular players as Estelle Taylor, Theodore Roberts, James Neill, Charles de Roche, and Lawson Butt.

When Douglas Fairbanks as THE THIEF OF BAGDAD flies on the Magic Carpet across the housetops with the Princess.

"Bagdad" Surpasses All Other Films
Douglas Fairbanks' glorious fantasy of The Arabian Nights, "The Thief of Bagdad," will be the attraction at the Lyceum Sunday, Monday and Tuesday, matinee and night, at popular prices.

This photoplay, according to all accounts, surpasses anything heretofore seen on the screen. This extraordinary picture has upset the equilibrium of the critics in every city in which it has been presented. It is the crescendo photoplay. It is a fantastical story of love and adventure laid in an imaginary world of fancy, abounding with amazing hap-

penings, and what critics genee U have called unbelievable wonders. If you still believe in love, if adventure still stirs you, if you like your heart to miss beats in ecstatic moments of exciting suspense, if you enjoy the surprise of seeing things that heretofore you thought were impossible—here in "The Thief of Bagdad" are all these things, in the background of beauty and splendor. In this picture, a Winged Horse flies up to and through the clouds, a Magic Carpet soars over the house-tops and into the sky; wonder after wonder, surprise after surprise, are here revealed in amazing abundance. To depict such happenings on the screen

has never been considered within the bounds of possibility. This crowning achievement has been accomplished by Douglas Fairbanks. It has received the highest endorsements that any picture has ever received. In this particular, it will be well to repeat what Robert L. Sherwood wrote in his department in "The Silent Drama," in "Life," April 3, 1924: "After seeing 'The Thief of Bagdad,' I am more competent to understand the motives which inspired the sturdy Britons who have been struggling for years to reach the peak of Mt. Everest. I know now what it means to be able to say, 'Well, I've been to the top.'"

BEST PICTURES PROMISED FOR GREATER MOVIES

Prominent producers and directors of motion pictures have lent their support to the local theatres to insure the success of Greater Movie season, beginning August 30th. A combined statement forwarded to the managers yesterday offered whatever assistance might be required and carried to the residents of this city the good wishes of the industry's foremost figures.

"Everyone has put his or her best into the creation of the new films," the statement says, "and from the season's outcome we will take encouragement for the future."

With the acknowledged purpose of

bringing back to the screen those whose interest may have waned, and to reward followers of motion pictures who have remained loyal in support through all the years of the screen's development, the exhibitors have handed together to make Greater Movie season a demonstration of film entertainment at its best. The work of the producers is done. Every effort has been directed toward making better and still better pictures for the forthcoming year and to release the first of these during the nationwide festival. But almost as important are the methods of presentation, the atmosphere of enjoyment the theatres provide; and it is promised that picture-goers, during Greater Movie season, will find all this in perfect harmony with the

new production standards the screen itself has set.

Bessie Love in New Barthelmess Film

Bessie Love scores the hit of her career with her performance of Tetta, the South Sea girl of "Soul Fire," Richard Barthelmess' new First National offering at the New Park tonight.

Miss Love's portrayal touches the heights of pathos and emotionalism. Indeed, the New York critics pronounced it one of the best characterizations of the entire screen year. Coupled with Barthelmess' fine work as Eric Fane, a musical genius, in this production, rated by the metropolitan reviewers as the most extraordinary work film portrait of his career, "Soul Fire" can well be said to be the best acted motion picture of the season.

30,000 BALL FANS GREET TY COBB

(By United Press)
Detroit, Mich., Aug. 29.—Before a deafening din of three blaring brass bands and shouts from the throats of 30,000 enthused fans helping Ty Cobb celebrate the completion of 20 years in baseball, the Detroit Tigers and Philadelphia Athletics began the second game of their series today.

The Tigers have won straight victories and the floundering Mackmen have lost four.

Quinn and Cochrane were the batteries for Philadelphia and Wells and Hassler worked for the Tigers.

Cobb got generous applause on his first trip to bat, driving a double to right, scoring Wingo, who had got on second by forcing Haney, who had singled. Cobb later scored on Hellman's single.

BLAME GANG OF HARVESTERS FOR RAIDS MADE

(By United Press)
Winnipeg, Aug. 29.—A gang of harvesters from eastern Canada with stolen automobiles are believed by police responsible for raids on Manitoba towns the last two days when loot valued at \$6,000 of which nearly \$1,000 was cash, was stolen from nine communities in the southern part of the province.

High class United States yokemen if engaged in the work, would have been more likely, it is pointed out, to have favored banks where a substantial haul in currency might be expected and would not risk chances of capture for the small bait offered by a country store.

With this end in view, police officers are trying to round up all newcomers to the districts affected and

a close check is being made of all automobiles reported missing. So far there is not a single clue to the identity of the robbers, although details of the robberies have been broadcast to police stationed on both sides of the border.

NOTE THIS, PLEASE. Fair visitors are indebted to the kindness and community spirit of the Symphony Orchestra players for this extraordinary musical program. Hundreds of dollars would not bring these artists to the fair, but they are putting on these splendid programs without cost to the fair association, because they feel they are a part of the community since making their summer homes in Crow Wing county. Certainly the people of this section of the state cannot do less than turn out by hundreds in response to such generosity. Don't miss this. We know of some people who are going to drive up from the Twin Cities because they know the treat that is in store. Come Tuesday. We know you'll be back Wednesday with your friends.

IN CASE OF RAIN, CONCERTS WILL BE HELD INDOORS, SO COME REGARDLESS OF THE WEATHER.

OTHER ATTRACTIONS

There are many other attractions, such as a demonstration by canning clubs of the county to select a team for the state fair, forestry displays and demonstrations, and the like to be sorted into the program whenever there is an opportunity to do so. You'll find something instructive and entertaining for every minute of the time.

GOV. CHRISTIANSON AT PEQUOT TODAY

Party to be Guests of F. T. Gustavson, President of County Fair

TO REMAIN UNTIL TUESDAY

Governor Goes to Park Rapids Monday, Reception at Pequot Sunday

Governor Theodore Christianson and party will arrive today from St. Paul, and go on to Pequot, where they will be guests at the F. T. Gustavson home for several days.

In the party are the governor and Mrs. Christianson, their two sons with a boy friend, and Mrs. Christianson's mother. They expect to remain until Tuesday of next week.

Governor Christianson will go on to Park Rapids on Monday, where he will deliver an address that afternoon and be back in time to officially open the Crow Wing county fair that evening. A public reception is being arranged for the party from 6 to 8 o'clock Sunday evening at the Pequot tourist park, to which everyone is cordially invited. A light luncheon will be served there cafeteria style, those attending are asked to bring a small cake or a few sandwiches and dishes to serve themselves.

FINAL DISPOSITION RUSSIAN REFUGEES STILL GREAT TASK

By HENRY WOOD
(United Press Staff Correspondent)
Geneva, Aug. 29.—World-wide statistics just completed by the International Labor Bureau place at 194,000 the number of unemployed Russian and American refugees still scattered about the world as a result of the great war.

Of this number 124,000 are to be found in the various European countries, living almost from hand to mouth.

The distribution of the unemployed Russian refugees in the different countries is as follows:

Austria, 2,559 of which 730 are women over 14 years.
Bulgaria, 4,000.
China, 70,000.
Czechoslovakia, 3,000.
Germany 50,000 mostly agricultural workers, intermittently employed; and also about 45,000 colonists from the Volga region.
Greece, 1,691.
Latvia, 1,910.
Poland, 6,700.
Serbia, 1,200.
Turkey, 550.

In addition to the above Russian refugees there are also still in Greece over 7,000 Armenian refugees without employment.

Final settlement of this problem is being sought by the International Labor Bureau which keeps in close touch with the labor market all over the world and which is seeking to transfer and place these refugees in the various countries where the particular kind of help they are capable of giving is needed.

Many May go to South America
The Labor Bureau expects soon the final report of the mission headed by Colonel Proctor which it sent to all of the leading South American countries with a view of permanent placing many of these refugees there.

It is expected that Colonel Proctor will have succeeded in making arrangements with several of the South American countries that will permit of a final transfer and settlement of several thousand of these refugees.

For the rest the Labor Bureau hopes to secure appropriations from various countries that will render it possible whenever the labor market of any country calls for a certain number of workers along any special line to at once transfer and permanently settle all of those for whom employment can be found.

IRATE MAN FINED \$75 FOR CHEWING BAILIFF'S FINGER

Minneapolis, Aug. 29.—A. Martin, Minneapolis police court bailiff, is nursing a painfully chewed finger today after trying to levy on clothes in the store of Solomon Steinmann, 21 Nicollet ave.

In court, Steinmann was fined \$75 for doing the chewing on a charge of interfering with an officer performing his duty.

A judgment of \$35 and costs had been obtained against Mr. Steinmann in Hennepin county. Mr. Martin, with Joseph Kommers, went to the Steinmann store to seize sufficient stock to satisfy the judgment.

He attacked them, saying he did not know they were officers.

"The Ten Commandments" Covers Time and Territory

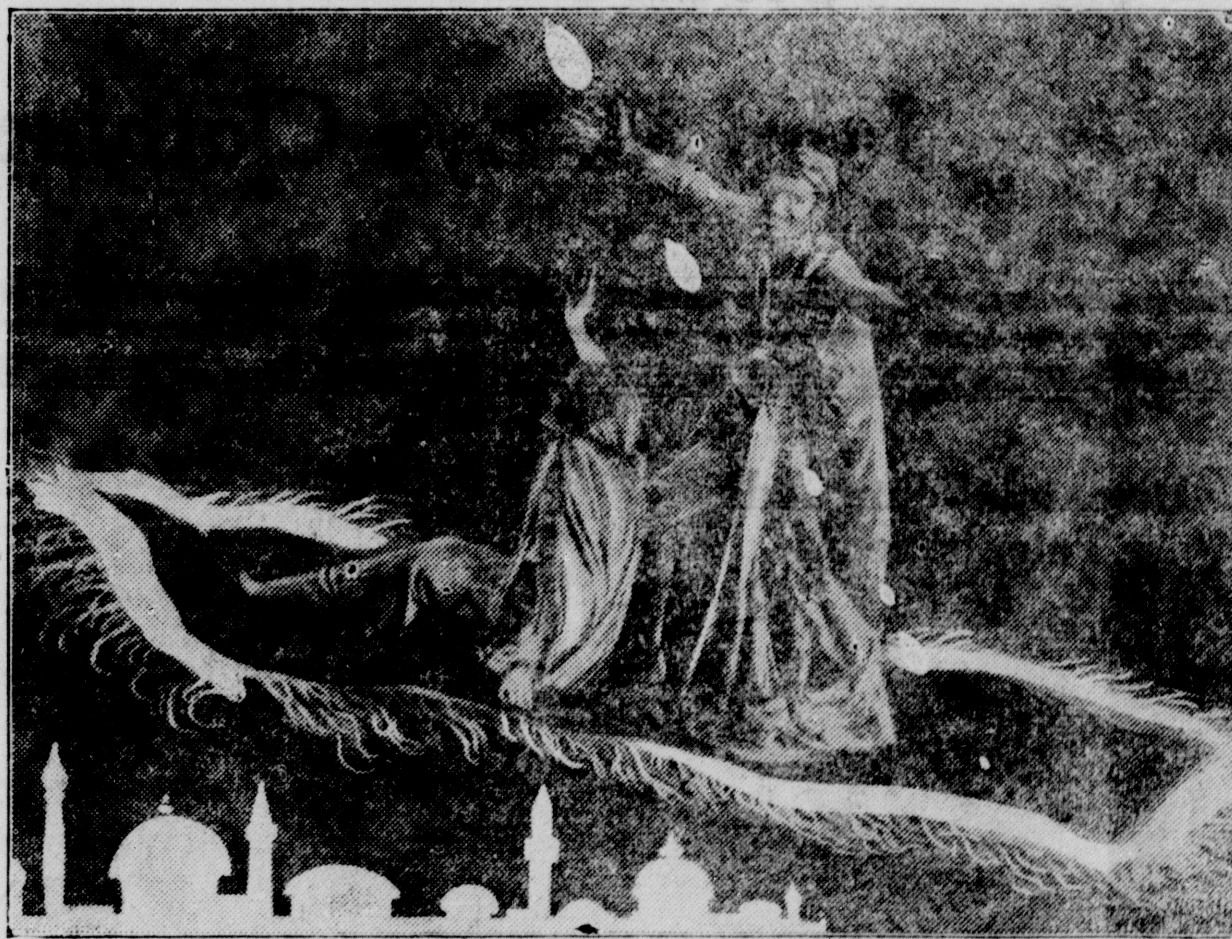

The Red Sea and San Francisco are about five thousand miles apart. The Israelites led by Moses on their exodus from Egypt are separated by about forty centuries from Sunday afternoon jazz dancing today. Yet, Cecil B. DeMille has managed to put them together convincingly in his

picturization of "The Ten Commandments." This great Paramount picture is coming to the New Park Sunday for a four days' run, where it will be shown at popular prices.

The modern story opens on a devout mother driving one of her two sons from home because he will not "apologize to God," for what she believes sacrilege. The son goes out

into the world, not bitterly, but boyishly exultant, to smash every commandment. Then DeMille develops his theme that "if you try to break the Ten Commandments they'll break you."

A gorgeous Biblical episode, done in natural colors, is enacted by such popular players as Estelle Taylor, Theodore Roberts, James Neill, Charles de Roche, and Lawson Butt.

When Douglas Fairbanks as THE THIEF OF BAGDAD flies on the Magic Carpet across the housetops with the Princess.

"Bagdad" Surpasses All Other Films

Douglas Fairbanks' glorious fantasy of The Arabian Nights, "The Thief of Bagdad," will be the attraction at the Lyceum Sunday, Monday and Tuesday, matinee and night, at popular prices.

This photoplay, according to all accounts, surpasses anything heretofore seen on the screen. This extraordinary picture has upset the equilibrium of the critics in every city in which it has been presented. It is the crescendo photoplay. It is a fantastical story of love and adventure laid in an imaginary world of fancy, abounding with amazing hap-

penings, and what critics generally have called unbelievable wonders. If you still believe in love, if adventure still stirs you, if you like your heart to miss beats in ecstatic moments of exciting suspense, if you enjoy the surprise of seeing things that heretofore you thought were impossible—here in "The Thief of Bagdad" are all these things, in the background of beauty and splendor. In this picture, a Winged Horse flies up to and through the clouds, a Magic Carpet soars over the house-tops and into the sky; wonder after wonder, surprise after surprise, are here revealed in amazing abundance. To depict such happenings on the screen

has never been considered within the bounds of possibility. This crowning achievement has been accomplished by Douglas Fairbanks. It has received the highest endorsements that any picture has ever received. In this particular, it will be well to repeat what Robert L. Sherwood wrote in his department in "The Silent Drama," in "Life," April 3, 1924: "After seeing 'The Thief of Bagdad,' I am more competent to understand the motives which inspired the sturdy Britons who have been struggling for years to reach the peak of Mt. Everest. I know now what it means to be able to say, 'Well, I've been to the top.'"

BEST PICTURES PROMISED FOR GREATER MOVIES

Prominent producers and directors of motion pictures have lent their support to the local theatres to insure the success of Greater Movie season, beginning August 30th. A combined statement forwarded to the managers yesterday offered whatever assistance might be required and carried to the residents of this city the good wishes of the industry's foremost figures.

"Everyone has put his or her best into the creation of the new films," the statement says, "and from the season's outcome we will take encouragement for the future."

With the acknowledged purpose of

bringing back to the screen those whose interest may have waned, and to reward followers of motion pictures who have remained loyal in support through all the years of the screen's development, the exhibitors have handed together to make Greater Movie season a demonstration of film entertainment at its best. The work of the producers is done. Every effort has been directed toward making better and still better pictures for the forthcoming year and to release the first of these during the nationwide festival. But almost as important are the methods of presentation, the atmosphere of enjoyment the theatres provide; and it is promised that picture-goers, during Greater Movie season, will find all this in perfect harmony with the

new production standards the screen itself has set.

SWIMMING IN PAIRS CAUSES MOST DEATHS

(By United Press)
Des Moines, Aug. 29.—Two people who cannot swim cause the majority of accidental drownings while bathing in the opinion of C. C. Riley, manager of the municipal beach here who has saved the lives of 112 bathers during the last five years.

Riley says when two insecure swimmers are bathing together they persuade one another to go beyond their depth or take other chances either one, if alone, would never take.

Bessie Love in New Barthelme Film

Bessie Love scores the hit of her career with her performance of Tetta, the South Sea girl of "Soul Fire," Richard Barthelme's new First National offering at the New Park tonight.

Miss Love's portrayal touches the heights of pathos and emotionalism. Indeed, the New York critics pronounced it one of the best characterizations of the entire screen year. Coupled with Barthelme's fine work as Eric Fane, a musical genius, in this production, rated by the metropolitan reviewers as the most extraordinary work film portrait of his career, "Soul Fire" can well be said to be the best acted motion picture of the season.

ENGLISH CHANNEL STORMY, NO SWIM TRIALS MADE

PIRATES WIN FROM PHILLIES TODAY 11-2

(By United Press)
Philadelphia, Aug. 29.—With a heavy attack on two pitchers, Decatur and Betts, the Pittsburgh Pirates crashed through the Phillies and won the first game of a double-header here this afternoon, 11 to 1. The Pirates gave Emil Yde, their star southpaw, a big lead and he had no trouble breezing through.

30,000 BALL FANS GREET TY COBB

(By United Press)
Detroit, Mich., Aug. 29.—Before a deafening din of three blaring brass bands and shouts from the throats of 30,000 enthused fans helping Ty Cobb celebrate the completion of 20 years in baseball, the Detroit Tigers and Philadelphia Athletics began the second game of their series today.

The Tigers have won straight victories and the floundering Mackmen have lost four.

Quinn and Cochrane were the batteries for Philadelphia and Wells and Bassler worked for the Tigers.

Cobb got generous applause on his first trip to bat, driving a double to right, scoring Wingo, who had got on second by forcing Haney, who had singled. Cobb later scored on Hellman's single.

BLAME GANG OF HARVESTERS FOR RAIDS MADE

(By United Press)
Winnipeg, Aug. 29.—A gang of harvesters from eastern Canada with stolen automobiles are believed by police responsible for raids on Manitoba towns the last two days when loot valued at \$6,000 of which nearly \$1,000 was cash, was stolen from nine communities in the southern part of the province.

High class United States yeggmen if engaged in the work, would have been more likely, it is pointed out, to have favored banks where a substantial haul in currency might be expected and would not risk chances of capture for the small bait offered by a country store.

With this end in view, police officers are trying to round up all newcomers to the districts affected and

a close check is being made of all automobiles reported missing. So far there is not a single clue to the identity of the robbers, although details of the robberies have been broadcast to police stationed on both sides of the border.

MONETARY PLEDGE OF CENTURIES AGO

An archeological expedition sent out by the University of Pennsylvania dug up a clay tablet in the ruins of the ancient city of Nippur, Babylon, with an inscription upon it which, translated, reads as follows:

"Thirty bushels of dates are due to Bel Nadin Shun, son of Marashu, by Bel Bullitsu and Sha Nabu Shu, sons of Kirebtl, and their tenants. In the month of Tashri (harvest month) of the thirty-fourth year of King Artaxerxes I, they shall pay the dates, thirty bushels, according to the measure of Bel Nadin Shun, in the town of Bit Balatsu. Their field, cultivated and uncultivated, their sief estate, is held as a pledge for the dates, namely, thirty bushels, by Bel Nadin Shun. Another creditor shall not have power over it."

This tablet was dated 430 B. C., or nearly 2,400 years ago. It may not be the oldest record extant of a mortgage, but it illustrates very clearly that the mortgage was an accepted form of investment some 2,400 years ago.—Donald Rea Hanson in Forum.

Old Temple Uncovered

How tremendous a role the earthquake has played in the history of mankind is once more hinted in a discovery of the expeditionary force from the University of Pennsylvania museum at Belzan (once Bethshean, later Scythopolis) in Palestine. The force has uncovered the ruins of a temple of Bacchus of which the columns were six feet in diameter. Among the columns, which had toppled over, were a portion of an enormous foot, in all probability from a heroic statue of Bacchus and some delicate Roman mosaics, utensils and statuary.

Unbeatable

Smith and Jones had a lawsuit. Smith sat in the courtroom before the case opened, with his witnesses around him. Then Jones bustled in. He stopped abruptly and looked Smith's witnesses over carefully. Presently he turned to Smith and asked: "Are these your witnesses?"

"They are," Smith replied.

"Then you win," Jones exclaimed. "I've had them witnesses twice myself."—Pathfinder.

Thousands of Sightless

The latest figures of the number of blind persons in the United States give a total of 52,567 of whom 39,160 were males and 22,407 females; 45,737 were white; 6,302 negroes, 488 Indians, and 49 Chinese or Japanese. These figures are for the enumerated blind, but the census bureau estimates the actual number at about from 74,000 to 76,000.

GAVE VISITOR NEW IDEA OF MISTRAL

Eugene Higgins at a luncheon on his yacht Thalassa, anchored in the Nice harbor, said of the Riviera winter climate:

"I like the winter climate here; it resembles a brilliant October day at home; but I hate that cold, fierce wind, the mistral. It's the Riviera's one fault."

"One day on the Promenade des Anglais I met a Nicols in a raging mistral."

"'Glorious day,' he said, holding his hat on with one hand and wiping the dust out of his eyes with the other. 'Grand weather.'"

"In the cold blasts of the mistral the palms swished wildly. The sea was white with foam. Dust clouds raced past us, carrying hats and parasols and newspapers."

"'Grand weather?' said I. 'With a wind like this?'"

"'Wind?' laughed the Nicols. 'This isn't a wind. This is our mistral, our splendid mistral, which makes us southern French so healthy and intelligent and successful.'"

Money Didn't Figure in This Transaction

Two old friends who had not seen each other for a long time met on Broadway. After they had exchanged greetings, one of them confided that things were breaking pretty well for him.

"I just sold my dog for \$100,000," he added.

"You don't mean to tell me you got \$100,000 for a dog?" protested the other.

"Absolutely," said the first one. "A rich oil man bought him and paid me on the spot."

His companion looked at him in amazement for a moment and then said: "You can do me a great favor. I need \$2,000—my wife is in the hospital and an operation may save her life. If you got \$100,000 for your dog, you can surely spare \$2,000—especially to an old friend and for an operation."

"Sorry, old pal," said the other, "but I can't do it."

"But I thought you said the oil man paid you for your dog."

"He did, but I can't loan you \$2,000. You see, he paid me with two \$50,000 cats."—New York Evening World.

Significance in Name?

Aside from the fact that both the new ambassador from Japan to the United States and his wife are descended from two of the oldest and most aristocratic families of the Island empire, and have come to America as typical representatives of the best in Japan, there is a touch of poetry associated with him which should make for an especially close relationship between the two countries. His family name Matsudaira, means "peace under the pine tree," and his name Tsuneko means "perpetual."—Christian Science Monitor.

Because the popular English duchess of York has a fad for hand-painted slippers and similar evening wearing apparel, budding, but needy artists of the European centers have suddenly found odd jobs that are a boon to them. The fad has become popular in London and Paris and as real artists were necessary to give this final touch the shops selling or making these accessories had to call upon the students and mature artists.

Cut Out Sheek Test

The teacher, prompted by superior authority, had asked permission, by letter, of a girl's parents to have her take the Sheek test. The permission was refused by the child's mother in a letter which ran as follows:

"Betty," said Petey, very much put out. "Can't you be a litl gentleman?"

Betty stopped, put her finger into her mouth and from then on played by herself.

Smith and Jones had a lawsuit. Smith sat in the courtroom before the case opened, with his witnesses around him. Then Jones bustled in. He stopped abruptly and looked Smith's witnesses over carefully. Presently he turned to Smith and asked: "Are these your witnesses?"

"They are," Smith replied.

"Then you win," Jones exclaimed. "I've had them witnesses twice myself."—Pathfinder.

Thousands of Sightless

The latest figures of the number of blind persons in the United States give a total of 52,567 of whom 30,160 were males and 22,407 females; 45,737 were white; 6,302 negroes, 488 Indians, and 49 Chinese or Japanese. These figures are for the enumerated blind, but the census bureau estimates the actual number at about from 74,000 to 76,000.

Slam at Agriculturists

A scientist predicts that by the use of a new rapid-growth serum with which he is experimenting, the farmer will plant wheat one day and harvest the crop the next. That will leave 363 glorious days in which to grumble.—Humorist (London).

Cattle Herds Decrease

America's cattle herds are rapidly shrinking, the decrease in number of head being 1,000,000 in 1924 in comparison with 1923, and a government survey shows that the decrease this year will be even greater.

GAVE VISITOR NEW IDEA OF MISTRAL

Eugene Higgins at a luncheon on his yacht Thalassa, anchored in the Nice harbor, said of the Riviera winter climate:

"I like the winter climate here; it resembles a brilliant October day at home; but I hate that cold, fierce wind, the mistral. It's the Riviera's one fault."

"One day on the Promenade des Anglais I met a Nicols in a raging mistral."

"Glorious day," he said, holding his hat on with one hand and wiping the dust out of his eyes with the other. "Grand weather."

"In the cold blasts of the mistral the palms swished wildly. The sea was white with foam. Dust clouds raced past us, carrying hats and parasols and newspapers."

"Grand weather?" said I. "With a wind like this?"

"Wind?" laughed the Nicols. "This isn't a wind. This is our mistral, our splendid mistral, which makes us southern French so healthy and intelligent and successful."

Money Didn't Figure in This Transaction

Two old friends who had not seen each other for a long time met on Broadway. After they had exchanged greetings, one of them confided that things were breaking pretty well for him.

"I just sold my dog for \$100,000," he added.

"You don't mean to tell me you got \$100,000 for a dog?" protested the other.

"Absolutely," said the first one. "A rich oil man bought him and paid me on the spot."

His companion looked at him in amazement for a moment and then said: "You can do me a great favor. I need \$2,000—my wife is in the hospital and an operation may save her life. If you got \$100,000 for your dog, you can surely spare \$2,000—especially to an old friend and for an operation."

"Sorry, old pal," said the other, "but I can't do it."

"But I thought you said the oil man paid you for your dog?"

"He did, but I can't loan you \$2,000. You see, he paid me with two \$50,000 cats."—New York Evening World.

Significance in Name?

Aside from the fact that both the new ambassador from Japan to the United States and his wife are descended from two of the oldest and most aristocratic families of the Island empire, and have come to America as typical representatives of the best in Japan, there is a touch of poetry associated with him which should make for an especially close relationship between the two countries. His family name Matsudaira, means "peace under the pine tree," and his name Tsuneko means "perpetual."—Christian Science Monitor.

Betty stopped, put her finger into her mouth and from then on played by herself.

NO ORDER MADE IN HAYES CASE

Judge W. S. McClenahan Makes Statement for the Dispatch in Recent Municipal Court Cases

HARRY HAYES CASE TRIED

Latter is Found Not Guilty. Was Tried on Charge of Breaking Speed Limit in City

In referring to the publication of two municipal court cases (Wyre and Hayes) in a recent issue of the Dispatch, Judge W. S. McClenahan of the district court wished it clearly understood that he made no order that Judge J. M. Hayes of the municipal court of Brainerd had no jurisdiction in the matter of the two speeding cases, and that no order other than is indicated in the following, was made by him:

It may be stated that in the case of State against Harry A. Hayes and State against Wyre, that a writ of mandamus was issued only in the Hayes case and that this was an alternative writ, returnable August 29, at 10 a. m., at which time Judge Hayes would have been allowed to show cause why he should not comply with the writ.

As Judge Hayes allowed the mayor to appoint a practicing attorney to act in his place before any writ could be served upon him, the matter was not passed upon by the district court.

As in the Wyre case, Harry A. Hayes was tried Friday morning on the charge of speeding, or breaking a traffic law, the case being heard by a practicing attorney, W. W. Bane, so named by the mayor, and Harry A. Hayes was found not guilty.

LARGE REUNION

John A. McColl of Brainerd and Other Relatives Are Members of Clan

MET IN SARNIA, ONTARIO

Miss Margaret McColl Elected Secretary of Association

Three hundred descendants of John Duncan, who came to Canada from Hamilton, Scotland, in 1820, met recently in Sarnia, Ontario, in celebration of their annual reunion. John A. McColl, of this city, and his sisters, known to many Brainerd people, Miss Mary A. McColl, who is returning from Scotland this week, and Miss Margaret McColl of Sarnia, are members of the clan. Miss Margaret was elected secretary of the organization at this meeting.

From Near And Far

The clan assembled from Calgary and Winnipeg, Buffalo, Chicago, Kansas City, Grand Rapids, Flint, and the vicinity of Carnia.

A program of sports was put on at Lake Huron park, also a ball game, followed by a banquet served by the ladies of the clan. In the afternoon the meeting was called to order and after planning to repeat the picnic next year, the new officers were elected.

Family History Given

Mr. Nisbet, the president, gave a short address, outlining the family history since the first settlement in Dalhousie township one hundred and five years ago. He paid tribute to the sterling worth of the generations now departed, and sketched the relationships which are getting remote and complicated in the course of six or seven generations.

William Miller, reeve of Moore, followed with an address, saying that the priceless legacy of a good example had been bequeathed to the present generation by their ancestors and hoping with strong confidence that the family name would be carried on worthily and that the record continue untarnished through the years to come.

The oldest of those present were Mrs. Robert Purves, 84, and John Duncan, 78, both grandchildren of John Duncan, the founder of the family in America. A picture of the ternoon, but the clan did not dis- gathering was taken during the afternoon until evening.

CUCUMBER CROP IN THE COUNTRY

Turning Out Much Better This Year Than Last Season

Heinz Co. Has Salting Station Located in Brainerd

The cucumber crop in Crow Wing county is turning out much better this year than it did last season, according to the figures at the H. J. Heinz Company's local salting station.

Cucumbers are coming into the station in much larger quantities than they did last year, and farmers are better satisfied with the yield, which promises to be exceptionally good, especially if rains are forthcoming in the near future.

The Heinz company also has cucumber salting stations at Little Falls and at Staples, and it is rumored that if the crop at the three centers is sufficient to warrant it, a dill plant, for the making of dill pickles, will be established.

It is believed that Brainerd will have the largest cucumber crop of the three centers this season, and if a dill plant is put in, it is felt that this city will be the logical place for its installation. Cucumbers would be collected from the other two stations and brought to this city to be made into pickles.

Over 150 acres are being devoted to cucumber raising in the Brainerd area this year, and it is expected that a larger acreage will be planted next season. Last year was the first time that local farmers have tried this crop, and while the year was most unfavorable, a fair yield was realized, with the result that more farmers were added to the list of cucumber growers this season.

The cucumbers are brought in to the Heinz station daily, and the growers receive their checks upon delivery. The crop is salted down in large vats here and shipped to the Heinz factories early in the winter. The local receiving station is on east main street, where visitors are always welcome.

HIGHWAYS IN FAIR CONDITION

All However, Said County Highway Engineer, Need Rain Badly

SOME ROADS ROUGH, ALL DUSTY

Roads, in Spite of Deficiencies, Are in Fair Driving Shape

Highways throughout the county are in fair condition, but all are badly in need of rain, reports County Highway Engineer Walter M. Murphy in his weekly road report.

While maintenance is kept up on all roads, the dry weather of the past two weeks has damaged the roads to such an extent that only good rains will place them in their former condition. It has made them rough in many places and dusty throughout.

Mr. Murphy states that this report need not keep any motorists from using the roads on Sunday. All are in fair driving condition, and many interesting and scenic tours can be planned.

State Road No. 2, known as the Dewing highway, crosses the southern tier of townships in the county, and connects Trunk Highway No. 27 with Trunk Highway No. 18 at Wigan bay, Mille Lacs.

State Road No. 3 extends from Brainerd north through Merrifield, Cross lake and Emily, where it connects with State Road No. 4, which is the road from Crosby north through Emily and Outing.

State Road No. 5 extends from Deerwood south past Bay lake to Trunk Highway No. 18 at the Workman corner, 16 miles east of Brainerd.

State Road No. 6 has just recently been designated as such, and was formerly White Line No. 10, known as the Inland Trail. It begins on State Road No. 3 one and one-half miles north of Merrifield, and extends to Breezy Point on Big Pelican lake, and then west to Pequot, where it connects with Trunk Highway No. 19.

AMERICA WEAK IN TENNIS DOUBLES

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Aug. 29.—Weakness of American tennis in doubles play was shown rather strikingly again when the English Wightman Cup team defeated the Americans for the second year in succession.

The inability of the American women to win even one of the doubles matches caused their second defeat in the three matches that have been played for the cup.

It has been no secret that Americans haven't developed their doubles play to the same degree of skill and efficiency that has been accomplished in singles competition and officials of the tennis association are frankly alarmed.

As the weakness in doubles play among the women players has resulted in the loss of the Wightman Cup, the same weakness among the men players may eventually cause the loss of the classic Davis Cup.

It was plain to be seen from the care with which the officials went about the selection of a Davis Cup doubles pair that they were not positive that the cup this year would not hang on the doubles match.

The weakness in American doubles probably is the result of a lack of interest in pair playing in this country. It is plainly apparent that the English players know more about the doubles because they have studied it. There is no system to the American game. They play like a pair of singles players instead of working up some kind of a systematic team plan.

Owing to the wide area over which American tennis strength is distributed, it is difficult to get two players together enough to develop a trained team. With the exception of Dick Williams and Watson Washburn and the Kinsey Brothers, there are no American stars who have taken doubles seriously enough to make a real effort to form a winning combination.

Bill Tilden cares very little for doubles and he follows the game merely as a means of tutoring some young protegee. Against the protest of officials, Tilden has been playing for several seasons with young Sandy Weiner, the Philadelphia boy.

The association wanted him to pick a partner from the Davis Cup players and practice through a season to get ready for the cup matches, but he has consistently refused to do it.

Doubles competition in England is a part of the social life and it is for that reason perhaps that the English players are so much more skilled in this department of the game than the Americans are.

Tennis had a hard time educating the public to the belief that it wasn't a sissy game but the education has become very thorough. So thorough in fact that tennis galleries are now becoming as hard boiled as a baseball crowd or a fight mob.

Officials were astounded during the recent Wightman Cup matches when the crowd razed the umpires and the linesmen for poor decisions with all the fervor of a baseball crowd that yells for the scalp of an umpire.

BULLET JOE BUSH

His old speed had come back, if for only a day
And he boomed it across in the same flaming way,
And the enemy batsmen were dazed by the sight
Of the Bush who was pitching with world series might.

He was calling on strength that had once left his arm
On a ball that was feared when he first left the farm
They had once called him "Bullet" and that was his name
As he mowed down the champions, winning his game.

Of the one lonely bingle that Joseph allowed,
Walter Johnson, himself was the author so proud
And the Senator crew that had won to the crest,
Were a wild-swinging lot as they faced Joseph's best.

Can it be that this man with the gray in his hair,
Held a thought of his pitching achievements so rare
In the season's when Mackian glory was gold
That he thus pierced the heart of the Senator fold?

SOUTHERN PLAYERS EXCNERATED BY LANDIS

Chicago, Aug. 29.—All players and officials involved in the Southern association baseball scandal were excnerated by a ruling of Baseball Commissioner Landis after a hearing of the case.

The chatter of a bat boy for the Nashville club, a member of the association, started the investigation. The lad supposedly had heard conversations indicating that two Nashville players planned going over to the New Orleans club to insure the latter the Southern pennant.

A Nashville newspaper exposed the alleged plot and an investigation by league officials followed.

Players Eichrodt and Roy, owned by Cleveland and under option to Nashville, were named.

Landis' decision vindicated the two men as well as all officials mentioned.

BRAINERD TO PLAY ISLE ON SUNDAY, AUG. 30

INDEPENDENTS OF BRAINERD TO CLASH WITH FAST TEAM

ISLE HAS QUITE A RECORD OF VICTORIES GAINED

The Brainerd Independents clash with the fast Isle team at Isle tomorrow.

Isle has met and defeated some of the best teams in the northeastern part of the state. Cave, the local pitcher, will be on the mound. Cave has the reputation of being one of the best pitchers turned out of Minneapolis in the semi-pro class.

Brainerd will be out for victory in her full strength, and out field made up of ex-high school stars, will make things hard for the Isle's nine to penetrate. The infield will be the same, which promises to give airtight support for the battery.

Naylor from Superior has been secured for Sunday's battle. He is visiting some of his relations up north and has consented to throw for Brainerd, if he decides to engage a few games for Morgan-Park here in Brainerd.

MRS. REINHART LEADS IN WESTERN GOLF TOURNAMENT

(By United Press)

White Bear, Minn., Aug. 29.—Mrs. E. Rosenthal Reinhart, Dallas, Tex., was one up on Mrs. Harley Higbie, Detroit, Mich., on the first nine of their 36 hole match for the Women's Western Golf championship today. Both were playing poorer golf than in early tournament matches, but they were playing pretty evenly.

Mrs. Reinhart was still one up at the 15th hole.

Their cards for the first nine:

Mrs. Reinhart out 445 753 745—44
Mrs. Higbie out 653 664 735—45

Mrs. Reinhart was off to a good start, with birdies on the first two holes. As the players teed off for the second hole, a downpour of rain greeted them, but it stopped by the time the green was reached.

Mrs. Higbie topped her brassie shot on the first hole, got into a sand trap and took two to get out.

On the second hole, Mrs. Higbie's 10-foot putt stopped dead on the lip of the cup while Mrs. Reinhart sank a 7-foot putt for a birdie four.

Mrs. Higbie took the third and fourth holes and evened the match. It was raining again but the shower stopped at the fifth tee. Mrs. Reinhart gained the lead on the fifth by shooting a five. She was two up on the sixth by shooting a par three. The seventh was halved and Mrs. Higbie gained the eighth. The ninth was halved.

Mrs. Higbie took the 10th hole 4 and 5 and evened the match. Mrs. Reinhart took the 11th and 12th and was two up on her Detroit opponent.

Mrs. Reinhart sank a 10-foot putt from the edge of the 12th green for an eagle three.

GRiffin, IOWA GRID PILOT, STARTS DRILL

Iowa City, Aug. 29.—"Tub" Griffin, captain of the 1925 Iowa football team, has returned to Iowa City after a summer of work in the Dakota wheat fields. The huge center's 235 pounds have congealed into that much muscle and he appears to be in the best of shape. He intends to take daily workouts until the pre-season practice starts Sept. 15. Griffin, Galloway and Romey will be the only regulars from last year's line to build on this year.

Score at End of 18 Holes

White Bear, Aug. 29.—Mrs. Rosenthal of Dallas was 1 up on Mrs. Harley Higbie, Detroit, at the end of 18 holes in their 36 hole Women's Western championship match today.

On the second 9 both players settled down to good golf. They halved the 16th, 17th and 18th holes.

They went out this afternoon to finish the match.

Mrs. Reinhart remained one up on Mrs. Higbie at the end of the 20th hole.

REFEREE SAVES KAPLAN'S CROWN IN HERMAN MIX

NEWSPAPERS AGREE THAT BABE WON NINE OUT OF 15 ROUNDS

REFEREE JACK SHEEHAN'S DECISION INCURS MUCH CRITICISM

By HENRY L. FARRELL
New York, Aug. 29.—By the grace of a referee's decision Louis (Kid) Kaplan of Connecticut, still is featherweight champion of the world today.

Had the decision in his fight with Babe Herman at Waterbury been left to the sports writers or spectators, California row would have its second new contender with a week.

For the boxer from the coast won a majority of the 15 rounds from the champion and stood aghast and dismayed at the finish when Referee Jack Sheehan of Boston signified that the bout had been a draw.

Jimmy Kelly, Herman's manager, promptly threw a fit in the challenger's corner, but the crowd of 20,000 fans—more people than Waterbury has ever seen since Terry McGovern and Young Corbett fought their memorable battle 24 years ago—sat stunned by the decision.

Nine of the 15 rounds were credited to Herman by those at the ringside, the boxer from the Pacific coast setting a fast pace from the start. A furious rally in the last round was what saved Kaplan his title.

CHESTNUT HILLS TENNIS SCORES

(By United Press)

Chestnut Hills, Aug. 29.—Miss Elizabeth Ryan of California defeated Miss Joan Fry of England in the women's invitation singles here today, two straight sets, 6-1, 6-1.

The match was featured by deep court playing on both sides of the net, with Miss Ryan's drives hitting all corners of the court.

Miss Fry found difficulty in trying to return her opponent's hard chop which was alternated with her drives.

POMPEY WINS \$50,000 HOPEFUL STAKES AT SARATOGA

(By United Press)

Saratoga Springs, N. Y., Aug. 29.—Pompey from the Shoshone stable won the \$50,000 Hopeful Stakes, the two-year old classic of the season, here this afternoon.

W. J. Salmon's Flight of Time was second and Chance Play from the Log Cabin stud was third.

Pompey, ridden by Laverne Fater, made a new track record of 1:17 for 6 1-2 furlongs.

The prices were Pompey 18 to 5, 8 to 5, 4 to 5.

Flight of Time, 4 to 1 and 2 to 1. Chance Play, even money.

Friar's Carse, the Glen Riddle Farm's heavily backed favorite failed to show.

AMERICA WEAK IN TENNIS DOUBLES

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Aug. 29.—Weakness of American tennis in doubles play was shown rather strikingly again when the English Wightman Cup team defeated the Americans for the second year in succession.

The inability of the American women to win even one of the doubles matches caused their second defeat in the three matches that have been played for the cup.

It has been no secret that Americans haven't developed their doubles play to the same degree of skill and efficiency that has been accomplished in singles competition and officials of the tennis association are frankly alarmed.

As the weakness in doubles play among the women players has resulted in the loss of the Wightman Cup, the same weakness among the men players may eventually cause the loss of the classic Davis Cup.

Score at End of 18 Holes

White Bear, Aug. 29.—Mrs. Rosenthal of Dallas was 1 up on Mrs. Harley Higbie, Detroit, at the end of 18 holes in their 36 hole Women's Western championship match today.

On the second 9 both players settled down to good golf. They halved the 16th, 17th and 18th holes.

They went out this afternoon to finish the match.

Mrs. Reinhart remained one up on Mrs. Higbie at the end of the 20th hole.

GRIFFIN, IOWA GRID PILOT, STARTS DRILL

Iowa City, Aug. 29.—"Tub" Griffin, captain of the 1925 Iowa football team, has returned to Iowa City after a summer of work in the Dakota wheat fields. The huge center's 235 pounds have congealed into that much muscle and he appears to be in the best of shape. He intends to take daily workouts until the pre-season practice starts Sept. 15. Griffin, Galloway and Romey will be the only regulars from last year's line to build on this year.

REFEREE SAVES KAPLAN'S CROWN IN HERMAN MIX

NEWSPAPERS AGREE THAT BABE WON NINE OUT OF 15 ROUNDS

REFEREE JACK SHEEHAN'S DECISION INCURS MUCH CRITICISM

By HENRY L. FARRELL
New York, Aug. 29.—By the grace of a referee's decision Louis (Kid) Kaplan of Connecticut, still is featherweight champion of the world today.

Had the decision in his fight with Babe Herman at Waterbury been left to the sports writers or spectators, California row would have its second row fighter older with a week.

For the boxer from the coast won a majority of the 15 rounds from the champion and stood aghast and close-eyed at the finish when Referee Jack Sheehan of Boston signified that the bout had been a draw.

Jimmy Kelly, Herman's manager, promptly threw a fit in the challenger's corner, but the crowd of 20,000 fans—more people than Waterbury has ever seen since Terry McGovern and Young Corbett fought their memorable battle 24 years ago—sat stunned by the decision.

Nine of the 15 rounds were credited to Herman by those at the ringside, the boxer from the Pacific coast setting a fast pace from the start. A furious rally in the last round was what saved Kaplan his title.

CHESTNUT HILLS TENNIS SCORES

(By United Press)
Chestnut Hills, Aug. 29.—Miss Elizabeth Ryan of California defeated Miss Joan Fry of England in the women's invitation singles here today, two straight sets, 6-1, 6-1.

The match was featured by deep court playing on both sides of the net, with Miss Ryan's drives hitting all corners of the court.

Miss Fry found difficulty in trying to return her opponent's hard chop which was alternated with her drives.

POMPEY WINS \$50,000 HOPEFUL STAKES AT SARATOGA

(By United Press)
Saratoga Springs, N. Y., Aug. 29.—Pompey from the Shoshone stable won the \$50,000 Hopeful Stakes, the two-year old classic of the season, here this afternoon.

W. J. Salmon's Flight of Time was second and Chance Play from the Log Cabin stud was third.

Pompey, ridden by Laverne Fater, made a new track record of 1:17 for 6 1-2 furlongs.

The prices were Pompey 18 to 5, 8 to 5, 4 to 5.

Flight of Time, 4 to 1 and 2 to 1. Chance Play, even money.

Friar's Carse, the Glen Riddle Farm's heavily backed favorite failed to show.

Lively's stock of Ford parts is complete in every detail. Open day and night.
